Cookies policy

Please learn that **xpd global®** web pages use coo-kies with different purposes, including data storage required to personalize content, offering social ne-twork functionalities and assessing the traffic in our web pages. A cookie is a little data file temporarily stored by a web server through your web browser. A cookie is not a .exe file nor a program, therefore it cannot contain or spread virus or other types of malwares, nor having a capacity longer than 4,000 characters. The use of cookies helps to remember the user preferences (language, country, login, browser features, data on our web, etc.). Continuing to browse on **xpd global®** web pages means you agree with the use of cookies.
