

# Safety, health and environment policy

At xpd global we are committed to providing logistics services attended by the decision maker, through the commitment to:

**1** - Our values.

**2** - Protection of the environment and prevention of pollution through:

- The rational use of electricity, water and consumables.
- The implementation of practices to reduce, reuse and recycle waste generated by our activities.
- The correct management of water discharges and the disposal of waste.

**3** - The elimination of hazards and risk reduction, as well as the adequacy of safe and healthy working conditions to prevent injuries and deterioration of health related to our activities.

**4** - Compliance with legal and other requirements applicable to our organization in terms of safety, health and environment.

**5** - The continuous improvement of our process management system, including the optimization of our environmental, health and safety performance, through the consultation and participation of our talents.
